EPDM (Ethylene Propylene Diene Monome)

We offer customized designs with expert consultation. EPDM rubber flooring is widely contemplated as a good alternative, where sports ventures for children may require protection from injuries while playing a particular sport. Royal Play Equipments EPDM are available in any specific custom configurations and measurements with multiple layers of rubber as per requirement. All floorings are available in multi-color options, offering an amazing appeal and safety at the same time. all our colour shades are happy and bright. EPDM flooring is so prevalent that Royal Play Equipments is committed to serving clientele from schools, universities, hotels, clubs and other recreational vicinities.

Benefits of Outdoor Playground Flooring

- Waterproof
- Impact absorber
- Low maintenance
- UV Light rays stable
- Environmental friendly
- Soft texture
- Anti slip / non-skid
- Drains easily with bevelled edges
- For both indoor and outdoor use

EPDM JOGGING TRACKS (IAAF APPROVED)

Royal Play Equipments rubber EPDM flooring is a specialized floor which provides cushion and better joint protection. The floor is made up of layers of rubber which are constructed on site and allows you to customize the design as per your requirements. Jogging is an activity that is as demanding as it is beneficial. It generates lots of strain on the knees & the joints. Jogging Tracks that have been laid out using jogging track safety surfaces help minimize stress level, owing to the excellent shock absorption properties. So that nothing else comes between you & your track.

Features of EPDM Jogging Tracks

- Classy look
- Varied patterns
- Flawless finishing
- Superb shock absorption and cushioning
- Enhanced speed
- Low maintenance
